PART I

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No 4368, dated the 10th October 1909 (but received on the 21st idem), from the Revenue Commissioner in Mysore, forwarding the Revenue Administration Report for the year 1908-09.

No. R. 5963-72—L. R. 55-09-5, DATED BANGALORE, 1ST MARCH 1910.

ORDER THEREON.—*Administration Report.*—The Revenue Commissioner's report, which was due on the 1st October, was received on the 21st idem. It is feared that the Revenue Commissioner's proposal to extend the time for the submission of the report by one month is not practicable.

2. Government regret to observe that the Revenue Commissioner is not able to report much improvement in the reports of Sub-Division Officers, which is stated to be chiefly the result of many of them failing to maintain any memoranda of their observations and inspections as required by standing orders. The Revenue Commissioner would do well to examine some of these notes during his tours and see that each officer cultivates the habit of carefully recording the results of his observations and enquiries. He should also insist on Sub-Division Officers collecting full information on all important subjects and submitting their Administration Reports in the form prescribed by Government, taking care to see that all available useful information is contained under the several headings.

3. *State of the season and condition of the people.*—Owing to the partial failure of the south-west monsoon and the almost total failure of the north-east monsoon throughout the greater part of the State, there was much distress during the year. The causes of the distress and the measures of relief started to cope with it have been explained in the Dewan's address to the Representative Assembly and have also been dealt with fully in a special report by the Revenue Commissioner and the review thereof by Government.

4. As a result of the distress, there was not much increase in the occupied area, the net increase, *viz.*, 37,726 acres assessed at Rs. 36,091, being about half of that for the previous year. There was a decrease of 201,252 acres in the area cropped and all the principal crops were affected. There was also a marked rise in prices. The average outturn of ragi, which is the staple food-crop of the ordinary people, was only 5·1 annas in the rupee and of paddy 7·8 annas. The average price of ragi was about 12 seers per rupee and of common rice about 7 seers per rupee. There was some deficiency of stock chiefly due to the raiyats having neglected to keep a reserve owing to the high prices, and this had to be met by extensive importations of rice from Burma and parts of the Madras Presidency. The depression in agriculture and the rise in prices affected all classes, especially the poorer agriculturists, the petty craftsmen and the smaller traders and officials. There was an increase in transfers of land. The wages of unskilled labour were maintained at their ordinary level only as a result of the increase of employment provided by Government by a liberal expansion of public and local fund works and by works carried out for land improvement with the aid of Government loans. The wages of skilled labour did not rise in proportion to the increase in prices owing to a decrease in the demand for manufactured articles. Industrial activity could not make much progress and the savings of the people showed a tendency to decrease. Although, owing to the favourable rains of the present year, the distress itself has ceased, its effects are likely to be felt for some time to come. But in generalising about the relation of labour to prices, it should be observed that the adjustment takes place very slowly in places where custom generally rules the market. As regards the Kadur District, however,

where the rise in prices is said to have resulted, in a marked manner, in a slight increase in the rate of wages paid to the coolies on the coffee estates, it has to be remarked that the system of paying the wages partly in grain and partly in cash, might possibly account for much of the rise indicated. The conversion of the quantity of grain so paid into its money value must necessarily, owing to the ruling high prices, indicate a rise in the total rate of wages paid.

5. *Jamabandi.*—Except in the Kolar District the jamabandi was not completed before the beginning of the collection season. The jamabandi as now conducted is stated to be confined to settling a few cases of *takrars* and of mutation of names and some cursory examination of accounts and boundary marks. As observed by the Revenue Commissioner, Revenue officers have an excellent opportunity during the jamabandi of ascertaining the needs of the people and the manner in which the administration of the taluk may be improved; and these results can be attained if the Revenue Commissioner insists upon jamabandi officers complying with the directions which have been issued in this behalf in Government Order No. 3231-8—R. 1053, dated the 17th October 1900, and other standing orders on the subject.

6. *Demand, collection and balance.*—The net recoverable demand for land revenue for the year, including previous years' arrears, was Rs. 1,13,55,806 as against Rs. 1,19,35,643 in the year previous. The decrease in the demand is due to the deduction of a large amount which ought to have been remitted owing to the scarcity in 1905-06 but which was still kept on in the accounts. The collections amounted to Rs. 88,94,711 as against Rs. 1,03,84,262 in the previous year, leaving a large balance of Rs. 24,61,095. This balance includes both amounts which have been directed to be suspended and those ordered to be remitted on account of the exceptionally severe seasonal conditions of the year as the amounts could not be ascertained before the end of the year. These are roughly estimated at 6 and 4½ lakhs respectively. Government trust that the accounts will be made up and the amounts to be remitted correctly ascertained before the ensuing collection season. The collections were on the whole satisfactory except in the Shimoga and Channagiri Taluks of the Shimoga District.

7. *Mohatarfa.*—Under Mohatarfa the total demand was Rs. 3,59,523 against Rs. 3,91,114 in the previous year. Of this only Rs. 2,51,986 was collected, leaving a large balance of Rs. 1,07,537 (inclusive of the amount of about Rs. 14,000 to be remitted on account of the concessions made to payers of Mohatarfa of eight annas owing to the distress). It is regretted that timely steps are not being taken to collect the arrears of Mohatarfa, which thereby show a tendency to increase. This is especially so in the districts other than Bangalore and Mysore. It is hoped that the matter will receive the Revenue Commissioner's special attention.

8. *Coercive processes.*—In nearly all districts great discrimination was exercised in the issue of coercive processes, and while there is a perceptible fall in the total number of processes issued (from 91,005 to 87,697 of which 66,053 were notices of demand as against 64,775 in the previous year) the results showed considerable improvement and the amount realised was Rs. 13,67,606. Sales were actually held only in 2,510 cases, though 10,674 notices of sale were issued; and the amount recovered was Rs. 54,689. In the Mysore District the increase in the number of sales is attributed to final steps having been taken during the year in a large number of cases which were pending from previous years. Government have reason to believe that there is generally much avoidable delay in completing proceedings for the recovery of arrears of revenue after the issue of processes and in confirming sales, and would be glad to see these delays reduced as much as possible. The Revenue Commissioner expresses the opinion that coercive processes could be still further reduced and the holders of land benefited if the precautionary measures prescribed in the Code, which are now seldom resorted to, are put into force. But it must be observed that these measures are of a stringent nature, and generally have to be resorted to only in special circumstances.

Land Revenue, dated 1st March 1910.

9. *Inam villages under Government management.*—The administration of inam villages under Government management was very unsatisfactory especially in the Bangalore, Mysore and Hassan Districts. The total number of inam villages under Government management is not stated nor what the total demand is. For the 45 villages, which represent less than half the number of villages under Government management, for which particulars have been furnished, out of a total demand of Rs. 1,11,801 only a sum of Rs. 48,319 was collected. The Revenue Commissioner is requested to obtain detailed particulars for each village, ascertain the causes for the backward state of the collections and report to Government the progress in the recovery of the arrears.

10. *Darkhasts.*—As the rains were full of promise at the beginning of the year the number of darkhasts was not much affected, but their disposal was not satisfactory. Out of a total of 21,018 darkhasts including those pending at the beginning of the year only 11,981 or 57 per cent were disposed of and lands were granted in 7,319 cases only. In the Bangalore, Mysore and Hassan Districts there is still a large number of darkhasts pending for more than two years. The Revenue Commissioner considers that the long duration of some of the darkhasts is due to their being applications for lands forming part of gomal lands or date reserves, and that much time is lost in correspondence. Government observe that in order to facilitate speedy disposal of darkhasts of the last mentioned kind they have issued special instructions in their Order No. R. 1008-18—L. R. 155-03-11, dated the 7th August 1907; and the Excise Commissioner is requested to see that the lists of lands required to be reserved as date groves are completed and published without delay. With regard to the issue of special rules for the grant of lands which are too poor in quality to be taken up permanently for cultivation and which are applied for every year in large numbers when the *hungar* rains are favourable, the Revenue Commissioner is requested to expedite the proposals called for in Government Proceedings No. R. 1021-30—L. R. 46-08-1, dated the 17th August 1908 in regard to the temporary grant of such lands for a year at a time. He should at the same time issue needful instructions to local officers to avoid the other causes of delay mentioned by him.

11. *Tanks.*—The restoration of both major and minor tanks, especially the latter, has been found to be one of the most suitable measures of relief of distress, and a large number of works of both kinds was undertaken during the year. In the case of minor tanks special facilities were also provided by allowing the cost of earth-work, which the raiyats are bound to do before Government aid is given, to be advanced as a loan. The number of major tanks repaired during the year was 303, the outlay incurred thereon by Government being Rs. 2,31,289 and the value of earth-work done by the raiyats Rs. 36,415. Five hundred and sixty-six minor tanks were dealt with during the year as against 402 in the year previous, the amount spent by Government and the value of earth-work done by the raiyats being respectively Rs. 1,34,863 and Rs. 1,01,559. Except in the Kolar, Tumkur and Hassan Districts, the interest taken in the matter by District Officers cannot be considered adequate. In view of the importance of expanding these irrigational resources of the raiyat, Government have decided, in addition to allowing the unspent balance of last year to be utilised in the restoration of minor tanks, to make a liberal allotment during the current year also and they trust that District Officers will see that the allotments are properly spent.

12. *Inspection of tanks.*—The work of inspection of restored tanks has also been greatly neglected. The suggestion made in the last year's review to have a programme for the inspection of tanks has been adopted only in the Tumkur District. The Revenue Commissioner is requested to see that a list of all these tanks is prepared without delay with the co-operation of the Public Works Department in every district and that arrangements are made for their systematic inspection. The Revenue Commissioner may submit separate proposals on his suggestion regarding the introduction of a system of rewards and punishments to make the Amildars pay greater attention to their duties in this respect.

13. *Boundary marks.*—Government must express their disappointment that in spite of repeated orders no endeavour has been made in any district to carry out systematic inspections of boundary marks. A few general observations about their condition are not sufficient, and the Revenue Commissioner should insist upon all Deputy Commissioners putting in hand arrangements for their systematic inspection without delay. Each Deputy Commissioner's scheme may be sent up to Government separately.

14. *Land improvement and takavi loans.*—Takavi advances, which experience has proved to be an efficient instrument of relief during the existence scarcity, were granted on a large scale during the year. The rules were revised, and special attention was paid to the speedy disposal of applications and prompt payment of loans. 6,404 applications were sanctioned for loans amounting to Rs. 4,39,842, out of which a sum of Rs. 3,75,636 was actually disbursed.

Loans amounting to Rs. 1,52,432 were granted for sinking irrigation wells and to Rs. 1,87,039 for such purposes as the purchase of bullocks, fodder, agricultural implements and subsistence allowances to agriculturists affected by the distress on a limited scale. The rest of the loans were for land improvements. The amounts given are stated to have been usefully spent. The total amount outstanding on account of these loans up to date is about eight lakhs, but the amount of the instalments recovered annually bears only a small proportion to the amount due. It is needless to emphasise the necessity for enforcing punctual repayments of instalments as an essential condition of the successful working of the system or to add that laxity in this respect is calculated to weaken the sense of obligation possessed by the raiyats and lessen their forethought and prudence. Steps should be vigilantly taken not only to prevent deterioration of the lands liable as security, but also to enforce repayments in case of default unless owing to seasonal conditions or other exceptional causes it is considered necessary to show some concession in individual cases.

15. *Avenue trees.*—The Chief Engineer is requested to take the necessary action to prevent a repetition of the complaint by the Deputy Commissioner of the Kolar District, regarding the injuries done to avenue trees by the manner in which gravel is quarried near them by the Public Works Department.

16. *Village roads.*—Government are glad to note that the free transport of grain from village to village, rendered necessary by the distress, has demonstrated the sufficiency of internal communication in the State. This emphasises the importance of maintaining the village roads in a fairly efficient condition.

17. *Agricultural improvements, etc.*—In spite of adverse seasonal conditions, the usual interest was taken in introducing agricultural improvements and new seeds and holding local shows and cattle fairs. The stimulus given to agricultural advancement by means of the Revenue and Agricultural Gazette and the increasing circulation of the journal are noted with satisfaction.

18. *Muzrai institutions.*—Necessary action will be taken in the Muzrai Department on the remarks contained in para 65 of the report on Muzrai institutions.

19. The Administration of Treasuries, Co-operative Credit Societies and Agricultural Banks and of the Veterinary Department are dealt with in separate reports and reviewed in connection with them. The Revenue Commissioner is requested to submit separate proposals regarding the arrangements necessary to revise the accounts and returns which are, in his opinion, too complicated and elaborate for their purposes and cause a certain amount of confusion.

20. *Establishment.*—Government are glad to observe the general improvement reported in the efficiency of the subordinate service. The exceptional seasonal conditions of the year put the efficiency of the Revenue establishment as a whole to a severe test and Government note with pleasure that they were found equal to cope with a most anxious situation.

Land Revenue, dated 1st March 1910.

21. The thanks of Government are due to Rajakaryapravina Mr. Rangaswami Iyengar for the efficient manner in which the administration of the Department was conducted during the year.

Letter No. 6167, dated 20th December 1909, from the Revenue Commissioner in Mysore, forwarding statements of fresh men entertained and of promotions given to officials, in the Hassan District, for the quarter ended 30th September 1909.

No. R. 6161-71—L. R. 170-09-14, DATED BANGALORE, 12TH MARCH 1910.

ORDER THEREON.—Recorded.

2. As pointed out by the Revenue Commissioner, the promotion of S. Ramanujiengar, Local Fund 4th clerk, as Revenue 5th accountant, is not in accordance with rules as the official has not passed the Accounts Test.

3. The rules cited in column 11 of the statement under reference are those laid down in Government Order No. 3, dated 12th April 1888, which, as the Deputy Commissioner should be aware, have been superseded by Government Order No. R. 1678--L. R. 105-06-1, dated 7th August 1906. These latter rules should have been referred to in the statement. As the mistake is evidently due to a corresponding alteration not having been made in the forms prescribed therefor, Government direct that the heading of column 11 of these quarterly returns be altered as follows:—"Under what rule or order the case falls."

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 2905, dated the 17th April 1909, from the Chief Engineer of Mysore, submitting with his views correspondence relating to a proposal made by the Executive Engineer, Mysore Division, for the retransfer of the execution of maintenance work to restored major tanks from the Revenue to the Public Works Department.

No. R. 6176-86—L. R. 364-08-2, DATED BANGALORE, 14TH MARCH 1910.

ORDER THEREON.—In the correspondence read above, three questions have been submitted for orders relating to the execution of maintenance works to tanks by Government, *viz.*, (1) whether it is the Revenue or the Public Works Department that should carry out the repairs rendered necessary by the neglect of the raiyats to do maintenance work to restored major tanks, (2) whether the Deputy Commissioner can sanction estimates to any amount on his own responsibility without reference to the Chief Engineer or any higher authority, when the work to be done consists entirely of earth-work, and (3) whether the accounts relating to expenditure on account of such works should be audited by the Public Works Accounts Branch or the Civil Accounts Branch of the Comptroller's Office.

2. The Deputy Commissioner, Mysore District, states that the Public Works Department used to carry out the repairs of all major tanks until Government Order No. R. 3819-21—R. M. 74-07-2 of the 18th December 1907 was passed whereby the execution of such repairs was transferred to the Revenue Department which was responsible for the maintenance of the tanks, major or minor, and the officers of which were made liable for any extra cost that might have to be incurred in carrying them out which was not covered by the one year's assessment recoverable from the raiyats under the rules. The Executive Engineer, Mysore Division, however, seems to think that the procedure laid down in Government Order No. 14-25—Agri. 79-07-4, dated the 1st July 1908, directing that such work should be executed by the Public Works Department, as ordinary repairs under the rules of that Department, contemplates a retransfer of the execution of the work to the Public Works Department.

3. Government observe that, in passing the above Order, they had no intention either to lessen the responsibility of the Revenue officers in such matters or to raise any questions as to their competence to carry out the repairs. In the few cases in which the work has been done through the Public Works Department the neglect was so serious and the outlay so great as to justify the course adopted. Except under such special circumstances, it has never been the intention of Government to transfer permanently to the Public Works Department the responsibility of carrying out maintenance works which has all along devolved on the Revenue Department. Government therefore direct that the existing practice be strictly adhered to. The words "that the Public Works Department should execute the work as ordinary repairs" in para 1 of Government Order No. R. 14-25—Agri. 79-07-4, dated the 1st July 1908, which have led to the present misconception, will be omitted and the words "for the work to be executed" substituted in their place.

4. The Revenue Commissioner is also in doubt as to the competency of the Deputy Commissioner to sanction on the latter's own responsibility estimates for earth-work to all restored major and minor tanks handed over to the Revenue Department for upkeep, without any limit as to the cost involved. Though the Deputy Commissioner's powers of sanction have been limited to Rs. 500 in the case of stone and masonry work to be executed to minor tanks, there have been no definite orders in regard to earth-work.

5. Government observe that cases in which an expenditure of more than Rs. 500 has to be incurred to repair the neglect of the raiyats to maintain restored tanks must be rare as, if the responsibility of each raiyat for his share of the earth-work is properly defined, the cost of such repairs to be undertaken by Government will be limited to what is actually necessary to enforce the obligation of the defaulters.

Land Revenue, dated 14th March 1910.

Government therefore consider that it is unnecessary to restrict the Deputy Commissioner's powers in any manner as regards earth-work which does not ordinarily require much professional skill; but in order to ensure the execution of such work in a satisfactory manner, they direct that the Deputy Commissioner should arrange to have the estimates checked and the work done tested through the Executive Engineer, whenever the estimates exceed Rs. 500.

6. The procedure regarding the audit and final adjustment of expenditure, as laid down in the existing orders, needs no alteration.

Proceedings of the Government of His Highness the Maharaja of Mysore. Land Revenue, dated 17th March 1910.

READ—

Correspondence ending with letters Nos. 7332 and 7333, dated the 24th January 1910, from the Revenue Commissioner in Mysore, regarding the supply of surveying and measuring instruments to shekdars.

No. R. 6237-46—L. R. 566-07-5, DATED BANGALORE, 17TH MARCH 1910.

ORDER THEREON.—It is observed that, consequent on the introduction of the new shekdari scheme under which shekdars are required to measure, subdivide and plot fields and to estimate for petty works in connection with buildings and irrigation works, the supply of a few sets of measuring and drawing instruments to shekdars is necessary, and the Revenue Commissioner proposes that a surveyor's chain 33 feet in length (costing about Rs. 18) and a cross staff (costing Rs. 5) may be supplied to every Taluk Office and that each shekdar be supplied with (1) a surveyor's (or measurer's scale with offset piece (Rs. 2), (2) Compass with pencil and ink legs (Rs. 2), (3) Drawing pen (Rs. 2) and (4) Measuring Tape (Rs. 6). The Superintendent of Revenue Survey is also of opinion that the above instruments should be supplied as proposed, and adds that in addition to the above, a wooden test rod of the value of Re. 0-8-0 (eight annas) may also be supplied. It is stated that the cost of these instruments would be less when locally manufactured instruments are purchased; but the Revenue Commissioner states that in the case of chains and staves it is desirable to obtain them from some firm of standing.

2. Government are therefore pleased to sanction the supply to each taluk of the following instruments:—

	Cost Rs.	a.	p.
(1) A measurer's chain	18	0	0
(2) Cross staff	5	0	0
(3) Wooden test rod	0	8	0

These will be kept in the Taluk Office and supplied as need arises under the orders of the Amildar to the shekdar who has to use them, and returned by him when they are no longer required.

Each trained shekdar will also be supplied with—

	Cost Rs.	a.	p.
(1) Surveyor's scale with offset piece	1	10	0
(2) Compass with pencil and ink legs	2	0	0
(3) Drawing pen	1	8	0
(4) Measuring tape 50 feet long in a leather case ...	5	0	0

3. If in any taluk the need for more than one set of surveying instruments is felt, the Deputy Commissioners concerned may apply for an additional set. Untrained shekdars who may be found competent to use these instruments may also be provided, if necessary, under the special orders of the Revenue Commissioner, with a set of drawing instruments. Each shekdar who has been supplied with any instruments will be responsible for their proper preservation and Amildars will be required to inspect them periodically.

Memo No. 8083, dated the 11th February 1910, from the Revenue Commissioner in Mysore, forwarding for the information of Government a copy of his order reviewing the reports of the several Deputy Commissioners on the nature and sufficiency of the securities furnished by the Revenue officials for the year ending the 30th June 1909.

No. R. 6450-59—L. R. 354-09-2, DATED BANGALORE, 31ST MARCH 1910.

ORDER THEREON.—Recorded.

2. The review discloses a state of things which ought never to have been allowed to exist. Government are pleased to direct that the Revenue Commissioner will remove from their respective offices such of the officials as do not complete their securities in proper form by the end of June next and report the names of the officials thus dealt with. Where practicable, the salaries of the officials in question withheld under Land Revenue Rule 8 (*b*) may be credited as cash security.

3. The review does not state whether Deputy Commissioners have reported that in all the cases in which the securities have been furnished in full, they are sufficient and in realisable form.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 8th March 1910.

READ—

Letter No. 272, dated 6th November 1909, from Dr. Coleman, officer in charge of the Agricultural Chemist's office, suggesting the establishment of a small depôt for stocking agricultural implements for sale to raiyats, and requesting that a permanent advance of Rs. 5,000 may be placed at the disposal of the Agricultural Department for the purpose.

No. R. 6055-66—AGRI. 62-09-2, DATED BANGALORE, 8TH MARCH 1910.

ORDER THEREON.—Dr. Coleman states that while the demand for improved agricultural implements is steadily increasing, the raiyats experience great difficulty in getting such implements at the time when they will be most useful to them. Owing to the limited demand there is not sufficient incentive for firms of standing to open local agencies at present. It is also pointed out that it is undesirable in the interests of the agricultural progress to allow any but the best implements to be introduced in the beginning, which would not be possible by means of merely private effort. It is therefore proposed to open a depôt, where improved implements proved to be suitable after test on the Experimental Farm may be stocked and offered for sale to the raiyats.

2. The Revenue Commissioner in Mysore is generally agreeable to the above proposals.

3. Government are satisfied that, in the present state of agricultural enterprise in the State, the introduction of improved implements cannot be left altogether to private enterprise and that the Agricultural Department has not only to make the existence of improved agricultural machinery widely known, but also to help the people by getting them such machinery as may be safely recommended to them for use.

4. Government are therefore pleased to approve of the scheme tentatively for two years. A permanent advance of Rs. 5,000 will be placed at the disposal of the officer in charge of the Agricultural Chemist's office for establishing the depôt and stocking improved agricultural implements for sale. As the object of the depôt should be merely to develop the demand for improved implements until the business becomes sufficiently profitable for a commercial firm to carry it on, only such implements as have been fully tested and as may be expected to be used by raiyats of ordinary means should be stocked. Care should be taken that the depôt is at no time stocked with agricultural implements that do not find a ready sale. Encouragement should be given to the local manufacture, in whole or in part, of such implements as can be made or copied in the Province.

5. Government also approve of the levy of a small commission on sales.

6. After opening the depôt, Dr. Coleman will, in consultation with the Revenue Commissioner, cause the fact to be made widely known to the agricultural population through the Deputy Commissioners of Districts, and also arrange for demonstrating the working and uses of the implements, on suitable occasions. Applications for loans for purchasing such machinery should be encouraged by the Deputy Commissioners as much as possible and the implements should be obtained through the Agricultural Department.

7. A report should be submitted every half-year as to the working of the depôt together with an abstract of accounts relating thereto.

No. Fl. 4778-87—G. F. 361-09-2, DATED BANGALORE, 26TH MARCH 1910.

ORDER THEREON.—Recorded.

2. Government approve of the steps taken by the Comptroller to discontinue the existing practice of maintaining in the District Treasuries the duplicates of Taluk Savings Banks Ledgers. It is understood, however, that there is at present no uniformity in the taluks either as regards the form of the ledger or in the procedure of calculating interest. In some taluks the same form of ledger as used in the Comptroller's Office and in the District Treasuries is maintained and the initial calculation of annual interest is made in the taluk itself; while in others the taluk ledger forms contain no interest column and the initial interest calculation hitherto used to be done in the District Treasury. Government desire that the Comptroller should issue detailed instructions introducing uniformity in this matter in all the taluks and also lay down such rules regarding the calculation and addition of the annual interest amounts as may seem necessary under the new system, which dispenses with the duplication of Taluk Ledgers in the District Treasuries.

3. Delay is again reported in the submission of the accounts for 1908-09 by the Treasuries and the Revenue Commissioner's attention will be invited to the remarks made by the Comptroller in para 3 of the report.

4. At the close of the year under report, the number of total depositors was 25,189 against 24,785 in the preceding year, whilst the total balance held by them was Rs. 72,22,473 against Rs. 73,91,599 in 1907-08, and the average amount to the credit of each depositor was Rs. 287 in 1908-09 against Rs. 298 in 1907-08.

Government Order No. 504—Ex. 15-01, dated 19th January 1904, returning the record of enquiry relating to the claim to the toddy revenue of Sarvamanya Bandasettihalli village, Hole-Narsipur Taluk, belonging to the Uttaradi Matt, for a further enquiry as to whether there are any special circumstances for bringing the case under Rule 20 of the Rules of August 1901, as the claim is not otherwise established.

2. Subsequent correspondence on the subject ending with letter No. 3824, dated 4th November 1909 from the Excise Commissioner in Mysore.

No. Fl. 4493-6—S. R. 15-01-6, dated Bangalore, 11th March 1910.

ORDER THEREON.—From the statement submitted by the Amildar of the Hole-Narsipur Taluk to the Deputy Commissioner with his report No. 273, dated 31st July 1874, it is clear that the beriz of the village at the time of its alienation consisted of only one item, *viz.*, land revenue. The enjoyment by the Matt of the toddy excise revenue, if any, must have ceased long before that date. This revenue was therefore rightly reserved to Government at the Inam Settlement conducted in 1877-78. Several opportunities were afforded to the Inamdar to prove uninterrupted enjoyment of this revenue for 50 years prior to 1892-93 which would have entitled the Inamdar to claim special treatment under Rule 20. But he has not been able to adduce satisfactory evidence of such enjoyment. The uncorroborated statements of two Idigars of the village cannot be accepted as such proof in face of the recorded decision against the Inamdar at the Inam Settlement. Government are of opinion that the claim is not established and that it should therefore be rejected.

The sum of Rs. 1,800 said to have been advanced to the Matt or such other amount as might have been actually advanced should be recovered and adjusted as early as possible.

Correspondence ending with letter No. 6043-224, dated the 8th March 1909, from the Deputy Commissioner, Kolar District, *re* the embezzlement of Government money by constable writer Ramaswami Naidu of the Kolar Taluk Police Office.

2. Letter No. 78-I. 2913, dated the 6th July 1909, from the Comptroller, on the same subject.

3. Letter No. 513-61, dated the 17th July 1909, from the Inspector-General of Police in Mysore, in the same matter.

No. J. 2577-616—POLICE 179-06-14, DATED BANGALORE, 5TH MARCH 1910.

ORDER THEREON.—On the 12th April 1907, the Comptroller called for explanation for the unauthorised increase in the pay bill for December 1906, of one 1st class constable and three 2nd class constables in the cadre of the Kolar Taluk Police and of one 2nd class constable in the cadre of the town force. The Headquarter Inspector on comparing the said pay bill with the copy received and filed in the District Police Office, found that the pay of eleven 2nd class constables had been included in the former and drawn in excess. This gave rise to suspicion, and copies of pay bills for the previous months received in the District Police Office, were compared with the payments actually made in the Treasury. The comparison disclosed an overdrawal of nearly Rs. 1,211-4-7. Thereupon, a regular audit of the accounts of the Taluk Police Office was instituted, which showed that fraud had been carried on systematically over a period of 24 months extending from February 1905 to March 1907, the amount so overdrawn being Rs. 1,150-4-6. Writer Ramaswami Naidu was eventually tried and convicted by the Sessions Judge of the Bangalore Division and was sentenced to undergo three years' rigorous imprisonment in all and to pay a fine of Rs. 300 and in default, to suffer further rigorous imprisonment for six months.

2. The manner in which the writer effected the embezzlement was as follows:—Correct copies of the barawards were prepared by him for record in the Taluk Office and for submission to the District Police Office. At the same time, he prepared false barawards for larger amounts for encashment in the Treasury. These, the writer himself cashed, the amounts entered in the cash book being those specified in the correct copies submitted to the Taluk and District Offices and not those actually drawn on the false barawards. The overdrawals were effected, in some months, by showing an increase in the cadre, in other months by erroneous totals and, in a few instances, by drawing again the pay of the individuals whose pay had already been drawn.

3. The commission of the fraud by the writer was facilitated by the absence of any kind of supervision by the Inspectors who signed the bills and by the Amildars who countersigned them, apparently without even satisfying themselves as to the correctness of the totals of the figures given in the bills. The fraud was at last noticed by mere chance in the Comptroller's office. Strict compliance with the circular No. 814-34, dated the 16th February 1881, of the Inspector-General of Police, requiring the careful preparation and punctual submission of a monthly disbursement statement which should necessarily tally with the treasury figures, would probably have rendered this defalcation difficult, if not impossible, and would certainly have brought it to light much earlier. It is to be regretted that owing to the failure of the District Police Office to regularly check and submit the disbursement statements to the Inspector-General of Police, the writer was enabled to continue his malpractices without fear of detection by higher officers. The office of the Inspector-General of Police cannot also be absolved from blame as the submission of the disbursement statements was not insisted on.

4. As regards the persons who are responsible to make good the loss caused to Government by the defalcation, the Deputy Commissioner fixes the liability on the officers who signed the pay bills, *i.e.*, the Inspectors and the Jamadars, on the Amildars for the time being, who countersigned the bills, and on the Taluk Sheristadars who encashed them. This list is defective both in respect of what it includes and what it omits. For example, it is difficult to see on what principle the Taluk

Sheristadars who did not countersign and who simply encashed the bills can be held responsible. They had not the means of checking the figures entered in the pay bills as there was no distinct and definite allocation of the Police force either by taluks or by districts at that period. They were bound to encash the bills when signed by the Inspector and countersigned by the Amildar. On the other hand, the Deputy Commissioner has practically exonerated the officials of the District Police Office, though that office failed to exercise any check over the work of the Taluk Police Office. It was the duty of that office to have checked the disbursement statements with the baraward on the one hand and the treasury figures on the other. But this was not done and the fraud was allowed to go on undetected. The responsibility of the District Police Office is all the greater because an incident occurred in 1905, which should have aroused suspicion. In February 1905, the Assistant Superintendent of Police asked the Taluk Police Office to explain how a double payment was made to constable No. 414 for the month of January 1905. Again in August of the same year, the Taluk Police Office was asked to explain the discrepancy between the figures given in the pay bills of the Town Police and the treasury figures. Nevertheless the matter was not pursued further, with the result that the constable writer was left free to continue his frauds. It is thus clear that the responsible officials of the District Police Office, *viz.*, the Assistant Superintendents and the Head-quarter Inspectors for the time being, should also be made to contribute to make up the loss which Government have suffered through their negligence.

5. Though there is no reason to suspect them of any dishonest motives, Government, after a careful consideration of the facts set forth above, direct that, as a disciplinary measure, the officers mentioned in the list hereto annexed, whose negligence contributed to the perpetration of the fraud, be made to pay the amount defalcated by Ramaswami Naidu, less any amount that may be recovered from him, in the following proportion and in proportion to the sums embezzled during each officer's period :—

(*a*) From the Drawers of pay bills	... One-half.
(*b*) From the Head-quarter Inspectors ...	... One-fourth.
(*c*) From the Amildars who countersigned the pay bills	... One-eighth.
(*d*) From the Assistant Superintendents of Police...	... One-eighth.

The actual amount payable by each officer will be as in the statement annexed, subject to any correction to be made by the Comptroller in communication with the Deputy Commissioner, Kolar District, and subject to a proportionate deduction, in case any sum has since been realised from Ramaswami Naidu. The recoveries will be made out of the pay or pension of the officer concerned by monthly instalments, each instalment not exceeding 25 per cent of the pay or pension.

6. The Deputy Commissioner attributes the occurrence of the defalcation partly to alleged shortcomings in the existing procedure for the preparation and cashing of the pay bills and disbursement to the members of the force of the amount drawn from the Treasury. But the Government agree with the Comptroller in thinking that the existing procedure is unobjectionable and that the defalcation is entirely attributable to the negligence of the officers referred to above.

No. 7993-8006—L. B. 48-09-35, DATED BANGALORE, 14TH MARCH 1910.

ORDER THEREON.—*Constitution of Local Boards.*—Exclusive of the Kolar Gold Fields Sanitary Board constituted under the Mines Regulation, there were during the year 8 District Boards, 77 Taluk Boards and 159 Union Panchayats constituted under the Local Boards Regulation.

2. *Kolar Gold Fields Sanitary Board.*—This Board consisted of 12 members, of whom 6 were *ex-officio* and the rest were non-officials appointed by Government. Of these 3 were Indians and the remaining 9, Europeans and Eurasians. The newly appointed Health Officer was made an *ex-officio* member of the Board in lieu of the District Medical Officer, Kolar Gold Fields. Six ordinary meetings of the Board were held during the year against 7 in the previous year. The average attendance at each meeting was 5·3 of officials and 3·8 of non-officials or 9·1 in all.

3. *District Boards.*—On the 8 District Boards there were on the last day of the year 202 members against a possible strength of 206 members. Of these 58 were *ex-officio* members, 77 non-official members appointed by Government and the remaining 67 non-official members elected by Taluk Boards. All the Boards met not less than the prescribed number of times, *viz.*, 4, during the year. The attendance of both official and non-official members was satisfactory.

4. *Taluk Boards.*—The 77 Taluk Boards had on the last day of the year 1,133 members on their rolls against the sanctioned strength of 1,152 members. Of these 368 were *exofficio* members, 406 non-official members appointed by Government and the remaining 359 non-official members elected by land-holders and Municipal Councils. During the year, 70 of the Taluk Boards met not less than the prescribed number of times, namely, 6, and of the remaining 7 the marginally noted 6 Taluk Boards met only 5 times and the Devanhalli Taluk Board held only 4 meetings. No reason has been assigned for not holding the prescribed number of meetings in these cases. Such deficiencies should be fully explained in the reports in future. The attendance of members at the meetings was on the whole satisfactory and the attendance of non-official members generally exceeded that of the officials except in the Arkalgud Taluk Board where it was the reverse.

5. *Unions.*—Union Panchayats were newly constituted in 24 villages and their number rose from 135 at the end of the previous year to 159 during the year under review.

These 159 Panchayats consisted of 1,229 members, of whom 305 were *ex-officio* and the remaining 924 were non-officials appointed by Government, the electoral system not being in force in Unions. Of the 130 areas ordered to be constituted into Unions from 1st July 1907 in the Mysore District, not one was so constituted and this is attributed to the non-completion of proposals in regard to the eliminating of some of the villages from the list. Owing to the delay in the preparation of house valuation lists, 5 Unions constituted in the Honnali Taluk are reported to have not commenced work. The inhabitants of Hodegere in the Channagiri Taluk and of Baguvalli, Kudlur, Lakkavalli and Lingadahalli in the Tarikere Taluk prayed for the cancellation of the order declaring their villages as Unions and their applications were under consideration at the end of the year. The people of Honganur and Malur in the Channapatna Taluk were also against the constitution of their villages into Unions, and this is reported to account for the absence of meetings in these two Unions. No meetings were held in the Sulibele and Hindiganal Unions of the Hoskote Taluk, Avati in the Devanhalli Taluk, Tavarekere, Motagondahalli and Gudemaranahalli in the Magadi Taluk and Parasurampura in the Chitaldrug District and the reason is not reported. In the Unions of Mandikal, Kandavara and Manchanbele in the Chikballapur Taluk also, no meetings were held and the omission is attributed to negligence on the part of the taluk authorities and want of adequate supervision on the part of the Taluk Board, which is much to be regretted. Thus during the year 12 of the Unions held no meetings, while out of the remaining 147, 4 met once, 7 twice, 10 thrice, 2 four times, 9 five times, 7 six times, 5 seven times 7 eight times, 6 nine times, 11 ten times, 8 eleven times, and only the remaining 71 held not less than the prescribed number of meetings, *viz.*, 12. The reason for the smaller number of meetings held has been explained only in the report of the Chitaldurg District where it is stated to have been due to the Amildars having had to devote their attention to the alleviation of distress which prevailed on account of the failure of rains. It is gratifying to note that with the exception of 3 Unions in each of which only 11 meetings were held, all the panchayats in the Shimoga District were able to hold the prescribed number of meetings. The attendance at the meetings was satisfactory in all the Unions except the following five:—

1. Hodagur,
2. Balyal,
3. Sosale,
4. Bidargere,
5. Siragere,

where the average attendance was just sufficient to form the prescribed quorum of 3 or a little over it. The information contained the in reports in regard to the working of the Unions is meagre. The attention of the Presidents is invited to Government Order No. 7604-13—L. B. 86-08-19, dated 9th February 1909.

6. *Finance Committee.*—The Finance Committees are reported to have done good work in the Kolar, Hassan and Chitaldrug Districts and to have met 12 14 and 13 times, respectively, during the year. Neither the number of meetings held nor the work turned out by the Committee has been mentioned in the report of the Bangalore District. In the Tumkur and Shimoga Districts the Committees are reported to have met 5 times while in the Mysore and Kadur Districts the number of meetings held was only 4 and 2 respectively. Government are inclined to think that in most of the districts the Finance Committees are not regularly performing their duties as laid down in Rules Nos. 120 and 121 of the Local Boards Rules. The Presidents are requested to see that the monthly District Fund accounts are placed regularly before the Committee for examination and that the annual administration reports contain a detailed account of the work done by the Committee with information as to the number of members, number of meetings held and the average attendance at each meeting.

7. *Relations of the Boards with one another.*—The relations of the Taluk Boards with their respective District Boards and of the Union Panchayats with their respective Taluk Boards were satisfactory. The resolutions of the Panchayats and

Local Fund and Sanitary (Local Boards), dated 14th March 1910.

Taluk Boards were not materially revised or varied by their respective Taluk Boards and District Boards except in the following few instances:—

(1) The proposal of the Bagepalli Taluk Board to repair the mantapam in-front of the 3rd class travellers' bungalow at Bagepalli was not approved by the Kolar District Board.

(2) The proposals of the Taluk Boards of Mysore and Malvalli for the grant of certain allowances to the vaidyas at Chamundi Hill and Malvalli were vetoed by the Mysore District Board.

(3) The proposal of the Taluk Board of Mudgere to open a new cattle-pound in Mr. Playfair's estate was not accepted by the Kadur District Board.

(4) The proposal of the Lakkur Union to open a sante at Lakkur was not approved by the Kolar Taluk Board.

(5) The proposals of certain Taluk Boards in regard to the budget provisions for 1909-10 had to be revised by the Hassan District Board with reference to the finances at the disposal of the Board.

8. *Financial position.*—The year opened with a balance of Rs. 3,33,652 and the income and expenditure amounted to Rs. 8,38,687 and Rs. 8,85,855 respectively, the balance at the close of the year being Rs. 2,86,484. The expenditure exceeded the receipts in all but the Mysore and Kadur District Boards. The incidence of revenue per 100 of population was Rs. 17, of which Rs. 9-14-2 was derived from the local cess, Rs. 2-9-2 from contributions mostly from the Provincial Funds and the Local Funds General to alleviate the distress caused by the failure of rains, Rs. 1-6-9 from house and mohatarfa taxes and the rest from other miscellaneous sources. The expenditure per 100 of population was 17-15-2, of which Rs. 12-9-9 was spent on public works Rs. 1-9-2 on medical relief, Rs. 1-5-11 on conservancy and sanitation and the remainder on other miscellaneous improvements. For purposes of taxation, houses in Unions are classified under 6 classes and rated from 4 annas to 5 rupees each. The average realised per hundred houses was Rs. 101-7-1 for all the districts except Shimoga, where the number of houses in each Union has not been furnished.

9. *Local cess.*—The principal source of revenue was the contribution of 76 per cent of the local cess on land revenue. It amounted to Rs. 4,88,006 and fell short of the income of the previous year by Rs. 41,923. There was a general decrease in all the districts on account of unfavourable seasonal conditions. The District Board of Kadur proposed the levy of an additional cess not exceeding 3 pies on every rupee of land revenue to compensate for the loss caused to the Board by the abolition of the halat on supari and to meet the increasing expenditure of the Board. A detailed report in the matter has been called for from the President and on its receipt the proposal will be considered.

10. *House tax.*—The income from house tax was Rs. 70,319 against Rs. 66,112, in the previous year. The formation of new Unions in the Shimoga and Kadur Districts chiefly accounts for the increase of Rs. 6,216 and 2,285, respectively under this head in those districts during the year. The decrease of Rs. 5,000 and Rs. 1,064 in the Kolar Gold Fields and the Tumkur District respectively is attributed to the distress which prevailed. For the collection of this tax coercive measures are reported to have been taken in a few cases in the taluks of Mulbagal, Chikballapur and Bowringpet in the Kolar District. It is reported that in the Unions of the Goribidnur Taluk in the same district the house tax due was not paid by the inhabitants at the instigation of a few people and that instructions have been issued to adopt coercive measures for the early recovery of the arrears from the obstinate defaulters. In some of the Unions of the Tumkur District, house-tax appears to have been imposed at rates of Rs. 7, Rs. 4, Rs. 2-8-0 and Rs. 1-8-0; while the sanctioned rates are Rs. 5, Rs. 3, Rs. 2, Re. 1, annas 8 and annas 4 (*vide* Government Orders Nos. 3878-85—L. F. 109-03, dated 8th April 1904 and 812-20—L. B. 128-04-8, dated 19th July 1905). The President is requested to explain the authority for the levy of the tax at the rates referred to above.

11. *Revenue from the sale of stray cattle and fines for cattle trespass.*—The income from this source was Rs. 30,997 or Rs. 7,971 less than that realised during the previous year. The decrease is reported to be due to the adverse seasonal conditions and to heavy cattle mortality during the year.

12. *Tolls.*—The income from tolls during the year was Rs. 31,285 against Rs. 26,028 in the previous year. The increase was chiefly due to the higher bids secured. A toll gate was established during the year at Bommenahalli in the Yedahalli Sub-Taluk on the Yedahalli-Shimoga road.

13. *Contributions.*—A sum of Rs. 1,26,994 was realised from contributions during the year against Rs. 26,674 in the previous year. The large increase was due to the liberal grants made to the District Boards from the State Funds and the Local Funds General for the sinking of new wells and the improvement of existing wells and other sources of water-supply and for relief works, to provide drinking water and to afford employment to the people affected by the unfavorable seasonal conditions during the year. The amount spent on account of special works in addition to the ordinary District Fund works was Rs. 87,647.

14. *Public works.*—The total outlay on public works during the year was Rs. 5,52,827. The following are the more important of the original works carried out during the year:—

Works	Amount of estimate	Outlay up to end of 1908-09	Outlay during 1908-09
	Rs.	Rs.	Rs.
1. Lighting the streets of the Kolar Gold Fields with electricity	13,033	14,136	14,136
2. Constructing a tunnel with armoured concrete slabs on Narsipur-Chamrajnagar road	9,609	6,042	2,171
3. Opening out Sorab-Anavatti road	22,980	12,599	2,971
4. Drainage of Robertsonpet	14,000	11,684	2,862
5. Musafirkhana at Robertsonpet	7,302	6,932	4,929

The total length of roads and cart-tracks repaired by the Public Works Department was 3,503 miles at an average cost of Rs. 77 a mile. The length of roads and cart-tracks repaired through the agency of the Civil Department has not been given in Appendix VII of the reports except in the case of two or three roads. The omission should be supplied in future reports. The opening of a road from Talak to Naikanhatti in the Chitaldrug District, is reported to have been completed at a little more than half the estimated cost, through the exertions of the taluk Revenue officer. Twenty miles of new roads in the Sagar Taluk and 4½ miles in the Tirthahalli Taluk are reported to have been formed so as to connect roadside villages with high-roads, 13 miles of inter-village roads in the Honnali Taluk and 48 miles in the Tirthahalli Taluk are also reported to have been repaired by the raiyats during the year. The lapses under A class public works were not considerable but those under B class public works were heavy especially in the Shimoga and Kadur Districts, being 44 and 37 per cent respectively. The heavy lapse in the Shimoga District is reported to be due to sanctions for some works having been accorded late in the year, and to bills not having been presented during the year, while in the Kadur District the heavy rains in the latter part of the year and the want of dynamite are reported to have prevented the completion of many works before the close of the year.

15. *Medical relief.*—One hundred and nine Local Fund Dispensaries and ninety-one midwives were subsidized from District Funds at an aggregate cost of Rs. 70,635 during the year. In all 858,156 patients were treated in these

dispensaries and 5,819 labour cases were attended to by the midwives. The Wesleyan Mission Dispensary for women and children at Hassan received a contribution from the District Funds of Hassan during the year.

16. *Vaidyasalas* (indigenous dispensaries).—Vaidyasalas were newly opend at the following places:—

District	*Taluk*	*Place*
Bangalore ...	Magadi ...	Kudur
Tumkur ...	Gubbi ...	Kadaba
Do ...	Kunigal ...	Amritur
Shimoga ...	Sorab ...	Anavatti
Mysore ...	Krishnarajpete ...	Sindhaghatta
Do ...	Mandya ...	Maddur

There were at the end of the year 25 indigenous institutions supported from the District Funds. During the year 140,299 patients were treated therein at a total cost of Rs. 6,900. These institutions are reported to be popular and to have done good work.

17. *Vaccination.*—In rural parts outside Municipal towns, 95,863 persons were vaccinated against 83,906 in the previous year. The vaccination work was chiefly done by taluk vaccinators and Medical officers in charge of the Hospitals under the control of the District Sanitary Officers. Vaccination was compulsory on the Kolar Gold Fields and the Sanitary Board employed two special vaccinators during the year.

18. *Accommodation for travellers.*—For the convenience of the travelling public, 135 third class travellers' bungalows, 198 musafirkhanas and 23 other buildings were maintained at a cost of Rs. 25,139. The fees collected for the occupation of these buildings amounted to Rs. 2,379. The buildings are reported to have been freely resorted to by the travelling public and their compounds cleanly kept. The musafirkhana at Mandagadde in the Tirthahalli Taluk being unfit for occupation, was sold by public auction and that at Holalkere was in the occupation of the Amildar with the sanction of Government. The Siralkoppa musafirkhana was for some time occupied by the Hospital Assistant, from whom rent was recovered in accordance with the rules. In the list of buildings in Appendix XI of the Chitaldrug District report the town hall at Chitaldrug is included, and the President is requested to explain whether the hall has been placed at the disposal of the travelling public.

19. *Conservancy and sanitation.*—The expenditure under this head amounted to Rs. 67,706 against Rs. 48,485 in the previous year. The employment of sweepers in the newly formed Unions chiefly accounts for the increase. A Health Officer was newly appointed for the Kolar Gold Fields. Sanitary Inspectors were appointed for the Bangalore, Hoskote, Anekal, Kankanhalli, Gubbi, Kunigal and Tiptur Taluks. For want of qualified candidates for appointment the places of Sanitary Inspectors in the Mysore District are reported to have not been filled up. It is reported in the Chitaldrug District that the system of giving rewards to patels, who keep their villages clean, proved an incentive to good work. Government regret that no information on this matter has been furnished in the other reports. It is reported that in 936 villages in the Kolar District, new sites were selected for storing manure and that in 554 of them manure heaps were removed to the sites selected. The President of the Hassan District Board reports that suitable instructions in the matter have been given to the Amildars. In the Chitaldrug District, sites for storing manure are reported to have been selected in 233 villages. In spite of the direction contained in para 14 of the Government Review of the reports for 1907-08, the progress made in this direction in the other districts has not been embodied in the present reports. The public health was on the whole satisfactory during the year.

The figures furnished in the reports show that the rules under the Village Sanitation Regulation were in force in 4,283 villages against 2,783 in the previous year, the increase being due to the rules having been made applicable to villages containing 25 houses and more, while formerly they were applicable to villages containing 100 houses or more only and to their introduction consequently into a number of villages chiefly in the Mysore and Kolar Districts. In the Chitaldrug, Hassan and Bangalore Districts the rules were not extended even to a single new village. The statistics furnished in some cases are unreliable and erroneous. The Presidents are requested to explain the following decreases:—

	Number of villages in which the rules were in operation.	
	1907-08	1908-09
Tumkur District	447	407
Shimoga Taluk	34	...
Channagiri do	80	33
Shikarpur do	19	14
Sagar do	29	...
Tirthahalli do	2	...

During the year 351 persons were prosecuted for breach of sanitation rules. Of these 193 were convicted and fines amounting to Rs. 224 recovered and credited to District Funds.

It is gratifying to learn from the report of the President of the Kolar District Board that the measures adopted for improving the sanitation of villages are appreciated by the villagers and are receiving their hearty co-operation.

20. *Vital statistics.*—The number of births and deaths registered during the year was 98,909 and 75,195, respectively, against 88,782 and 91,056 in the previous year. The number of deaths registered was far less than that of births in all the districts except Kadur. The number of deaths from cholera and small-pox was 1,252 and 3,014, respectively, as against 2,152 and 2,394 in the previous year.

21. *Water-supply.*—Owing to the failure of rains during the year, great difficulty was experienced for want of drinking water for men and animals. To alleviate this distress, special contributions were made from the State Funds and the Local Funds General.

22. *Amrut Mahal bulls.*—Amrut Mahal bulls were maintained for breeding purposes in the Hassan, Mysore and Chitaldrug Districts. No bulls were maintained in the Tumkur and Kadur Districts, while the report of the Bangalore District is silent on the subject. The bulls in Kolar and Shimoga were unserviceable. In the Hassan and Chitaldrug Districts, the District Boards subsidised private enterprise by paying half the cost of the bulls in one case in the former and four cases in the latter district. Statistics of the use made of the bulls have not been furnished, and the Presidents are requested to see that proper statistics are collected and an annual abstract thereof is furnished along with the annual reports.

23. *Cattle shows.*—During the year, cattle shows were held at (1) Ghati Subrahmanya in the Dodballapur Taluk, (2) Nandi in the Chikballapur Taluk, (3) Chunchunkatte in the Yedatore Taluk, (4) Hemagiri in the Krishnarajpete Taluk and (5) Kudli in the Shimoga Taluk. Prizes were awarded to the exhibitors of the best cattle, and the aggregate expenditure incurred from the District Funds on account of these cattle shows was Rs. 574.

24. *Veterinary hospitals and dispensaries.*—These institutions are reported to have been popular and to have done good work. The cost incurred from the District Funds for their maintenance amounted to Rs. 925.

Local Funds General.—The year opened with a balance of Rs. 1,26,618, and the income and expenditure during the year amounted to Rs. 1,92,561 and

Local Fund and Sanitary (Local Boards), dated 14th March 1910.

Rs. 2,04,444 respectively. The following were the principal items of expenditure during the year:—

	Rs.
Public works executed by the Public works Department ...	26,080
Industrial schools	58,889
Contribution for works executed by the Civil Department ...	88,065
Dasara Industrial and Agricultural Exhibition	8,040
Mysore Engineering School	7,712
Miscellaneous	15,658
Total ...	2,04,444

The balance at the close of the year was Rs. 1,14,735. Compared with the receipts during the year, the expenditure was about 59 per cent on public works, 31 per cent on industrial schools and 16 per cent on other items, or in all 106 per cent, the excess over the income having been met out of the opening balance.

25. *General.*—During the year the iron safe in the office of the President of the Kolar Gold Fields Sanitary Board was broken open by an office peon and Rs. 1,173 abstracted therefrom. The culprit was duly prosecuted and convicted. A sum of Rs. 859 was recovered and the rest was written off the accounts.

Government note with satisfaction that the non-official members continued to evince keen interest in the local affairs under their management.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

(1) Letter No. 898, dated the 30th September 1909, from the Chairman of the Board of Trustees for the Improvement of the City of Mysore, submitting the Administration Report of the Board for the year 1908-09.

(2) Letter No. 2770—617, dated the 2nd December 1909, from the Comptroller, submitting the final accounts of the Board for the year 1908-09.

(3) Correspondence ending with letter No. 940, dated the 31st January 1910, from the Chairman, submitting certain revised statements and explaining certain discrepancies in the report.

No. 8591-631--ML. 276-09-7, DATED BANGALORE, 30TH MARCH 1910.

ORDER THEREON.—The City of Mysore Improvement Regulation was amended by Regulation II of 1909. The Civil Surgeon of the Mysore District ceased to be a Trustee and the Health Officer of the Mysore City and the Deputy Sanitary Commissioner were appointed as Trustees of the Board. Certain powers of the Mysore City Municipal Council in regard to streets, drains, privies, sewers, etc., the service of notices and the execution of works and the recovery of the cost thereof were also conferred on the Board under the amending Regulation.

2. The annual grant including the opening balance and the income from properties, etc., was restricted to 3 lakhs of rupees from the year 1908-09 and the expenditure under service heads during the year amounted to Rs. 2,74,574, of which Rs. 2,42,489 or about 89 per cent was spent on works. Government note that at the close of the year there remained to be acquired 1,262 properties notified for acquisition, and that the annual grant from the State Funds will have to be continued for about four years more to bring the operations of the Board to completion.

3. The total amount of loans granted by the Board up to the end of 1908-09 was Rs. 12,763, of which Rs. 7,559 remained to be collected at the end of the year. Statement No. VII appended to the report and intended to show the loans granted and the instalments due and collected, has not been prepared correctly. The following discrepancies require explanation :—

		Rs.	a.	p.
1. Loans granted up to the end of 1907-08.	As given in the report for 1907-08	11,697	9	5

Amount recovered during the year 1908-09 as noted in Statement B and the Comptroller's account ...		1,531	3	9
Difference to be accounted for		699	14	0

The above figures clearly indicate that the loan accounts have not been properly maintained. The Chairman is requested to have the accounts thoroughly overhauled.

4. The report brings to notice that a sum of about Rs. 263 recovered out of loans granted was misappropriated by a collection mutsaddi and that the Police authorities who were requested so far back as November 1907 to arrest the culprit and seize the papers of the Board in his possession have sent no reply in the matter.

Proceedings of the Government of His Highness the Maharaja of Mysore,

The Chairman should have reported the occurrence to Government forthwith and taken prompt steps to prosecute the offender and recover the amount embezzled. The detailed special report in the matter which is promised is awaited. Meanwhile the Inspector-General of Police is requested to render all possible help to the Chairman for bringing the offender to punishment.

5. Government express their thanks to the Trustees for their labours during the year.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Medical), dated 15th March 1910.

Government Order No. 7574-94—Med. 142-08-2, dated the 9th February 1909, calling for the opinion of certain Heads of Departments and Deputy Commissioners of Districts on the proposals of the Senior Surgeon and Sanitary Commissioner with Government, regarding the transfer of officials to maidan districts after service for a certain term in the malnad, contained in his letter No. G. 390, dated the 18th December 1908.

2. Opinions received from the Heads of Departments referred to and the Deputy Commissioners of Districts.

No. G. 4787-829—Med. 142-08-27, dated Bangalore, 15th March 1910.

Order thereon.—Government have had under consideration for some time past the principles on which to regulate service in the malnad, and though no hard and fast rule is necessary or possible, Government are pleased to lay down the following general instructions in the matter:—

(1) Where executive and other officers liable in the ordinary course to service in all parts of the State, have put in a continuous service of three years or more in the malnad or any unhealthy station, it will be open to them to ask for a transfer to a maidan station and the application may be favourably considered at the earliest possible opportunity consistent with the public interests.

(2) A longer period, say five years, may be insisted upon in the case of the District Forest Officers and their Assistants and in that of minor officials who are not ordinarily required to serve in all parts of the State.

(3) But in special cases where an officer is in a position to obtain a certificate from the District Medical and Sanitary Officer of the District or other prescribed Medical authority, to the effect that his health has been injuriously affected by residence in the malnad or in any unhealthy station, his transfer may be effected at once or, if this be not possible, on the expiration of any leave to which he may be entitled under the Mysore Service Regulations.

(4) Heads of Departments and Deputy Commissioners of Districts should, as a rule, consider, in making or recommending permanent transfers, whether every officer has or has not put in the required period of service in the malnad and if there are any who have not, give or recommend for an early turn of duty there, public interests permitting. Where Deputy Commissioners of malnad districts wish to effect transfers of officials to a maidan station, they may arrange for such transfers, if necessary, in communication with the Deputy Commissioners of maidan districts and the Revenue Commissioner or other Head of Department concerned.

(5) In the case of gazetted officers, Government generally adopt these principles and in the case of junior or ministerial officers in whose case the difficulty is chiefly experienced, Government look to the Heads of Departments and the Deputy Commissioners of Districts to effect what considerations alike of humanity and of official efficiency require.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Education), dated 17th March 1910.

READ—

Letter No. 6547—447, dated the 5th January 1910, from the Inspector-General of Education in Mysore, reporting that Mr. J. W. Arnold, the Educational Advisor to Indian Students in England, states that the Advisory Committee is willing to undertake the guardianship of the Mysore State Scholars in England and suggests that the set of rules drawn up for the Indian Government Scholars in England may be made applicable to the Mysore Scholars also and recommending that the rules may be approved.

No. 8143—EDN. 237-09-2, DATED BANGALORE, 17TH MARCH 1910.

ORDER THEREON.—The following rules proposed for adoption for the guidance of Mysore State Scholars in England, are approved :—

(1) The Inspector-General of Education in Mysore shall inform the Educational Advisor of the course of study which it is proposed each scholar shall follow. In cases where this is not decided before the scholar leaves Mysore, the scholar shall follow the instructions of the Educational Advisor.

(2) Scholars will be regarded as being under the supervision and charge of the Educational Advisor, to whom they should in all cases address any communications they may have to make, and to whom also all reports or other communications having reference to scholars should be sent.

(3) Every scholar should, on reaching England, at once call upon the Educational Advisor and report his arrival in writing.

(4) Every scholar must, at the end of each term of residence at a University or College, submit to the Educational Advisor a certificate from the proper University or College authority, showing that his residence, conduct and progress in study have been satisfactory during the term.

(5) It shall be competent for the Advisory Committee to recommend the termination of a scholarship and the return of the scholar to India, in the case of misconduct.

2. The Inspector-General of Education is requested to send a copy of the rules to each of the State Scholars in England for guidance.

The Administration Report of the Public Works Department for the year 1908-09, submitted by the Chief Engineer with his letter No. 7655, dated 14th October 1909.

No. G. 4777-86—G. M. 157-09-3, DATED BANGALORE, 15TH MARCH 1910.

ORDER THEREON.—*General.*—Orders were passed in January 1909, on the report of the Retrenchment Committee regarding the possible reduction of expenditure in the Public Works Department. Under these orders the normal annual budget grant for the Department has been fixed at Rs. 25 lakhs and the expenditure on establishment (permanent as well as temporary) will be reduced by one lakh and thirty-three thousand rupees in spite of a favourable revision in scales of pay of Assistant and Executive Engineers.

The Marikanave Division, which had been amalgamated during the previous year with the Chitaldrug Division, was reconstituted as an independent division, the combined charge having been found to be too heavy for one officer.

A new special Channels Conservancy Division was formed for a short period for controlling and regulating the supply of water in the Cauvery and Kabbani rivers during summer, so that the supply at the Power Station at Sivasamudram might not be affected to any serious extent.

Expenditure.—The total expenditure incurred by the Department during the year under review under all heads, except the "Cauvery Power Scheme" for which a separate budget has been sanctioned, amounted to Rs. 37,37,821. The amount spent out of the Public Works grant proper was Rs. 27,19,392 against a budget grant of Rs. 28,67,065. From the year's aggregate budget allotment there was a lapse of Rs. 1,69,575 or 4·4 per cent of the grant, which is reported to be due to ordinary causes, such as savings under certain heads of expenditure, delay in the settlement of pending claims, etc.

Original works.—Among the principal original works that came under the operation of the Department during the year was the Marikanave Reservoir. It made satisfactory progress and water was issued for purposes of irrigation up to the 18th mile of the right bank channel and up to the 16th mile of the left bank channel. There was a marked increase in the area of land under irrigation from the reservoir, the total extent of such land being 6,455 acres with an assessment of Rs. 19,500 as against 3,227 acres yielding Rs. 12,154 in the previous year. Good progress was also made in the construction of the Sowlanga new tank in the Honnali Taluk.

Another important work which claimed the attention of the Department was the Chamarajendra Technical Institute at Mysore, for the site of which private properties were acquired at a cost of Rs. 17,491.

A pay ward for Indian officers was added to the Victoria Hospital buildings at Bangalore.

Miscellaneous public improvements.—In connection with the long-pending question of improving the sanitary condition of the Shimoga Town, it was resolved during the year that the two most urgent needs of the town, namely, the opening of a new extension and the provision for an adequate supply of good drinking water, should be taken in hand without delay, and two projects were sanctioned at an estimated cost of Rs. 66,150 and Rs. 65,592 respectively, the allotments for the year under review being Rs. 7,000 and Rs. 20,000. Out of these allotments a sum of Rs. 5,967 was spent during the year on the former project and Rs. 20,095 on the latter.

The principal works carried out during the year from funds other than Provincial were the opening out of a new extension between the Chamarajpet and the Basavangudi Extensions, Bangalore City, the supply of electric power to the pumping plant of the Vanivilas Water Works at Belagola and the construction of the Third Maharajakumari's Mansion at Mysore.

General (Miscellaneous), dated 15th March 1910.

Minor Tanks Restoration Scheme.—The number of minor tanks dealt with during the year was 963. The value of earth-work contributed by raiyats is estimated at Rs. 97,431 while the cost of stone and masonry work carried out by Government was Rs. 1,21,152. Government are glad to note that good work was shown in Kolar and Tumkur Districts, Kolar maintaining the first place in this respect. But it is a matter for regret that adequate attention was not paid in the districts of Shimoga and Kadur. The Deputy Commissioners of Districts are requested to direct their best attention to this work.

Establishment.—The cost of establishment amounted to Rs. 7,27,169 comprising Rs. 1,15,170 under "Direction," Rs. 5,84,472 under "Construction" and Rs. 27,527 under "Accounts" and bearing a proportion of 24·5 per cent to the total outlay on the works, as against 25·3 per cent in the previous year.

Cauvery power Scheme.—During the year under review the accounts of the Cauvery Power Scheme were examined by Messrs. Lovelock and Lewis, Chartered Accountants, Calcutta, and as a result of their examination a new system of accounts, more or less on commercial lines, was adopted. The actual outlay on the Cauvery Power Scheme exceeded the budget grant of Rs. 5,40,000 by Rs. 10,33,040 owing to the adjustment of a sum of Rs. 11,27,685 towards the Depreciation Fund formed under the new system. The revenue realized during the year was Rs. 17,46,295 and the working expenses amounted to Rs. 2,97,900.

It is gratifying to note that out of the total sum of Rs. 79,97,234 spent on the scheme up to the 30th June 1909, a net revenue of Rs. 56,11,697 or 70·17 per cent of the aggregate capital expenditure has already been realized.

The third installation was practically completed during the year.

In para 98 of his report the Chief Engineer refers to instances of interference by villagers with the transmission lines, such as, breaking insulators, throwing green creepers, etc. In drawing the attention of the Inspector-General of Police and the District Magistrates of Mysore, Kolar and Bangalore to this matter, Government desire that vigilant precautions should be taken to prevent the occurrence of such mischievous practices in future.
